

SECTION 1: IDENTIFICATION

Product name: Argon, Compressed

Product code: ARG-UHP

Recommended use: Inert shielding gas, laboratory analysis.

Manufacturer: Northwind Industrial Gases, 900 Cylinder Ave, Houston, TX 77002

Emergency telephone number: (800) 555-2121 (24 hour)

SECTION 2: HAZARDS IDENTIFICATION

GHS Classification: Compressed gas

Signal word: WARNING

Hazard statements: H280 Contains gas under pressure; may explode if heated.

Pictograms: Gas cylinder

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Argon, CAS 7440-37-1, >99.998%.

SECTION 4: FIRST-AID MEASURES

Inhalation: Remove to fresh air. In case of high concentration exposure, symptoms of asphyxiation may occur.

Skin contact: No adverse effects expected from skin contact.

Eyes: No adverse effects expected.

SECTION 5: FIRE-FIGHTING MEASURES

Suitable extinguishing media: Not combustible. Use extinguishing media suitable for surrounding fire.

Specific hazards: Cylinders may rupture or burst in the heat of a fire.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions: Ventilate area. Asphyxiation hazard in confined spaces.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling: Use only with equipment rated for cylinder pressure. Secure cylinders upright.

Conditions for safe storage: Store in a well-ventilated, dry location away from heat sources.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls: Use only in well-ventilated areas; monitor oxygen levels in confined spaces.

Eye/face protection: Safety glasses recommended.

Hand protection: Leather work gloves recommended when handling cylinders.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Colorless, odorless compressed gas

Odor: None

Molecular weight: 39.95 g/mol

Boiling point: -185.9 C

Vapor density: 1.38 (air = 1)

Solubility: 0.056 g/L in water at 20 C

SECTION 10: STABILITY AND REACTIVITY

Reactivity: Argon is chemically inert and will not react under normal conditions.

Chemical stability: Stable.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute toxicity: Simple asphyxiant. Argon can cause asphyxiation by displacing oxygen in air.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: Not expected to be harmful to aquatic organisms.

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal methods: Return cylinder to supplier. Do not vent to a confined space.

SECTION 14: TRANSPORT INFORMATION

UN number: UN1006

UN proper shipping name: Argon, compressed

Transport hazard class: 2.2

SECTION 15: REGULATORY INFORMATION

TSCA: Listed on the TSCA inventory.

SECTION 16: OTHER INFORMATION

Revision date: 2026-02-01

Version number: 2.0
